

DOG WALKING & EXERCISING SERVICES

Are you unable to exercise your dogs during the day or evening? Do they have unwanted and destructive behaviors? Are they hyper active?

If the answer is yes, Fur-Baby Pet Services LLC offers walking and exercising services to your dogs. Dogs have the similar DNA to Wolves. They want to run, jump, play and hunt. It's not in their nature to just sit in a kennel, yard or house all day long.

We offer walking for low energy dogs, runs for medium energy dogs, and bike rides for high energy dogs. Let us exercise those built up frustration away so you can have a happy, healthy, and calm dog(s) when you get home. Call us for pricing and to set up services.

BOARDING SERVICES

Do you need to travel and can't take your pets with you? No worries, FBPS is here to keep your pets safe and sound until you get back! You are not paying us to lock your pets up and be neglected. At our facility they receive plenty of attention, exercise, socialization, and monitoring through our 24/7 interactive care.

There are several different types of pet care options while you're away:

- Kennel Free Boarding
- Kennelled Boarding

Either option will allow your furbaby to run, play, and do what dogs do in a secure and controlled private location.

IN-HOME SERVICES

If you're not a fan of boarding services, we understand. This is why we also offer an In-Home Pet Sitting option. With this service we go to your home to provide care for your pets.

For our professional pet owners, we also provide Check-in services. Throughout the day we stop by your home to make sure your pets are happy, healthy and exercised. We provide play time, walks, potty breaks as well as making sure they are both watered and fed.

Please contact us for pricing and schedule your pet care needs. We are not limited to dogs and cats. Even iguanas need play time!
